

Keysight Technologies

Save 33% on the CX3300 Device Current Waveform Analyzer

Measure what was once unmeasurable

PROMOTION START DATE: June 1, 2017 **END DATE:** December 31, 2017 **PROMOTION CODE:** 6.018

Availability:

- Worldwide

Promotion conditions:

- Customer must reference promotion code 6.018 upon order placement.
- Promotion discount cannot be combined with other Keysight offers or promotions.
- Keysight Technologies reserves the right to modify or discontinue this offering during the promotional period.
- Let Keysight's product selection experts and technical support specialists help you develop a solution designed specifically for your business environment.
- Contact your Keysight representative or authorized partner for more information or to place an order: www.ccontrols.ch
- Request a quote and reference promo #6.018

Save 33% to ensure dependable, reliable operation of high-value, battery-powered devices. The capability to measure previously unmeasurable low-level current waveforms named Keysight's CX3300 Series device current waveform analyzer *Electronic Products'* 2016 "Product of the Year".

CX3300's low noise design and unique ultra-wideband low current sensing technology enables you to quickly and precisely visualize current waveforms that were once unmeasurable. By capturing current profiles in extreme detail, the CX3300 Series helps you find and fix the elusive problems that eat away at the product performance of a low power device.

The CX3300 key features:

- Ultra-wideband low current sensors covering a wide range from 100 pA to 10 A
- Max. 200 MHz bandwidth (50 MHz, 100 MHz and 200 MHz options)
- Max. 1 GSa/s sampling rate
- Max. 256 Mpts memory depth (16 M, 64 M and 256 M options)
- 2 Channel/4 channel mainframe model (digital channel is available only on the 4 channel model)

Promotion Products	Product Description
CX3322A	CX3322A Device Current Waveform Analyzer, 1 GSa/s, 14/16-bit, 2 Channel
CX3324A	CX3324A Device Current Waveform Analyzer, 1 GSa/s, 14/16-bit, 4 Channel
